

CONTENTS

Missions

Chair: D. De Lisle & A. Coletta

Sea and Ice Products from Sentinel-1

E. Attema, P. Snoeij & M. Davidson

TerraSAR-X Measurements of Wind Fields, Ocean Waves and Currents

S. Lehner, J. Schulz-Stellenfleth & S. Brusch

Ocean Current Applications

Chair: J. Johannessen & J.A. Lorenzetti

An Assessment of the Usefulness of SAR Images to Help Better Locating the Brazil
Current Surface Inshore Front

J.A. Lorenzetti, M. Kampel, B.F. Gutemberg & A. Sartori

Combined Backscatter and Doppler Shifts from SAR Images: Observations, Synergies
and Simulations

J.A. Johannessen, F. Collard, B. Chapron et al.

Routine High Resolution Observation of Selected Major Surface Currents from Space

F. Collard, A.A. Mouche, B. Chapron et al.

Wave Applications, Internal Waves and Swell – Part 1

Chair: J. Da Silva & F. Ocampo Torres

Spatial and Temporal Variations of Internal Wave Sea Surface Signatures in the Northern
South China Sea Studied by Spaceborne SAR Imagery

W. Huang, J. Johannessen, W. Alpers et al.

Synthetic Aperture Radar Observations of Sea Surface Signatures of Atmospheric Gravity Waves over Southeast Asian Coastal Waters

W. Alpers, W. Huang & G. Xilin

Effects of Gap-Winds on Multi-Modal Ocean Swell Systems at the South Pacific Coast of Mexico

G. Díaz-Méndez, F.J. Ocampo-Torres, P. Osuna et al.

On the Ocean Surface Wave Spectrum Detection under Hurricane Influence: Detailed Spatial Evolution

F.J. Ocampo-Torres, P. Osuna, D. Castro et al.

Wave Applications, Internal Waves and Swell – Part 2

Chair: W. Huang & W. Alpers

First Results Obtained in the OSIRIS Project

J. Schulz-Stellenfleth, T. König, S. Lehner & X.M. Li

Do Moving Polar Highs Play a Role on the Generation of Internal Solitary Waves in the Atmosphere?

J.C.B. da Silva & J. Magalhães

Methodology and Techniques

Chair: B. Chapron & H. Johnsen

SAR Altimetry Applications over Water

C. Martin-Puig, J. Marquez, G. Ruffini et al.

Geophysical Model Functions for the Retrieval of Ocean Surface Winds

D.R. Thompson, F.M. Monaldo, J. Horstmann & M.B. Christiansen

Comparison of Data and Model Predictions of Current, Wave and Radar Cross-Section Modulation by Seabed Sand Waves

C. de Valk

Oil Spill Applications

Chair: V. Kerbaol & O. Trieschmann

Satellite Monitoring of Oil Spills in the Mediterranean Sea for 1999-2004

K. Topouzelis, O. Muellenhoff, D. Tarchi & G. Ferraro

Development of Oil Spill Monitoring System for the Black Sea, Caspian Sea and the Barents/Kara Seas (DEMOSS)

S. Sandven, V. Kudriavtsev, V. Malinovsky & V. Stanovoy

Oil Spill Techniques

Chair: B. Chapron & G. Campbell

Sea Oil Spill Observation by Means of Analysis of Spatial Statistics in Polarimetric SAR Data Using Wavelet Signatures

A. Gambardella, G. De Grandi, T. Ainsworth & M. Migliaccio

Oil Spill Detection by Means of Dual-Polarized SAR Data

F. Nunziata, A. Gambardella & M. Migliaccio

Analysis of the Sea Surface Scattering with and without Surface Slicks

F. Nunziata, P. Sobieski & M. Migliaccio

Unsupervised Oil Spill Detection in SAR Imagery through an Estimator of Local Regularity

M. Tello, C. López-Martínez, J.J. Mallorqui et al.

Vessel Detection Applications

Chair: O. Trieschmann & G. Campbell

Near Real Time Suspect Vessel Identification System

S. Pelizzari, A. Rocha, P. Carmo & R. Pereira

Characterisation of Location Discrepancies between Envisat/ERS Ship Detection Reports and AIS Records During the MARISS Phase 2 Trials in France

J.-Y. Le Bras, O. Germain & G. Hajduch

Vessel Detection Techniques

Chair: J. Schulz Stellenfleth & G. Campbell

Hydrodynamics and Remote Sensing of Far Wakes of Ship

A. Soloviev, M. Gilman, K. Moore et al.

Ship Detection: From Processing to Instrument Characterisation

G. Hajduch, V. Kerbaol & R. de Joux

Ship Detection Approach Based on Cross-Correlation from Dual-Polarization Data
C.-S. Yang & K. Ouchi

Discretization Effects in Sea Surface Simulation Applied to Ship Classification Studies
G. Margarit & J.J. Mallorqui

Ocean Wind Applications – Part 1

Chair: J. Horstmann & W. Alpers

Similarities and Differences of SAR Derived Wind Fields Using Two Different Methods:
The Local Gradient and the Continuous Wavelet Transform Methods
S. Zecchetto, F. Nirchio, S. Di Tomaso & F. De Biasio

Ocean Wind Applications – Part 2

Chair: S. Lehner & D.R. Thompson

Synergetic Use of Radar and Optical Satellite Images to Support Severe Storm
Prediction for Offshore Wind Farming
S. Bruschi, J. Schulz-Stellenfleth & S. Lehner

A New SAR Retrieval Method for Hurricane Wind Parameters
A. Reppucci, S. Lehner & J. Schulz-Stellenfleth

Wave Mode Algorithms, Validation and Assimilation

Chair: H. Johnsen & G. Kallos

Data Assimilation in Wave Modelling – Operational Use and Validation
G. Kallos, G. Galanis & G. Emmanouil

Recent Improvements of the Assimilation of Upgraded ASAR L2 Wave Spectra
in the Wave Model
L. Aouf, J.-M. Lefèvre, B. Chapron & D. Hauser

Ocean Wave Measurements in High and Complex Sea State by SAR Wave Mode
Data and Numerical Wave Model
X.-M. Li & S. Lehner

Ice Applications

Chair: O. Grabak & P. Clemente Colon

Improved Sea Ice Monitoring for the Baltic Sea: Project Overview and First Results
L.E.B. Eriksson, K. Borenäs, W. Dierking et al.

Analysis of C-Band Polarimetric Signatures of Arctic Lead Ice Using Data from AIRSAR and RADARSAT-1
D. Bäck, B. Holt & R. Kwok

Poster session

Chair: J. Da Silva & J. A. Lorenzetti

Concept Design of Near-Space Passive Radar for Ocean Remote Sensing
W.-Q. Wang, Q. Peng & J. Cai

Ice Detection and Classification in Liaodong Bay with Envisat ASAR Imagery
Y. Ji, J. Zhang, J. Meng & X. Zhang

Comparison and Evaluation for Ship Target Detection Algorithms with SAR Images
X. Zhang, J. Zhang & Y. Ji

Numerical Simulation on Series of Airborne SAR Images of Internal Waves
F. Li, Y. Chong & Y. Ouyang

Analysis of Effects of Environmental Factors on Spatio-Temporal Distribution of Ice in Liaodong Bay with Envisat ASAR and MODIS Imagery
H. Yue, Y. Ji & X. Zhang

Simulating the Influence of Wave Whitecaps on SAR Images
E. Pugliese Carratelli, B. Chapron, F. Dentale & F. Reale

SAR Signatures of Oceanic Internal Waves in the Barents Sea
I. Kozlov

Coastal Wind Field Analysis Based on Spaceborne Active Radar for the Olympic Sailing Competition in Qingdao, China
X.-M. Li, S. Lehner & S. Brusch

Comparison between SAR Streaks and AVHRR Spatial and Temporal Evolution of Cloud Streets to Derive Rolls Aspect Ratio Maps
E. Arabini & M. Chiacchio

Investigation of Inhomogeneity Parameters of ERS-2 Wave Mode Image

G. Song, S. Lehner, J. Schulz-Stellenfleth & H. Grassl

On the Capability of the Degree of Polarization for Oil Spill Observation

A. Gambardella, F. Nunziata & M. Migliaccio

Session Summary

High Resolution SAR Wind Mapping

Methodology and Techniques

Oil Spills

Vessel Detection

Wave Mode Algorithms – Validation and Assimilation

Wave Applications, Internal Waves and Swell

Ice Applications

Ocean Current Applications

List of Participants
